

Model: SHX-SD4345 Pneumatic Shield Box

SHX-D4345 shielding box adopts advanced casting process, filter and automatic control technology, the design fully conform to the requirements of the production, lab test. Verification By the department of national metrology, The shielding effectiveness of similar products in the country in a leading position. Widely used in GSM, GPS, PHS, BLUETOOTH, WLAN testing, etc.

SPECIFICATIONS:

SHX-SD4345 Specifications	
Frequency Range(GHz)	0.8~6GHZ
Isolation	≥75 dB @2.4GHz
	≥70 dB @5.8GHz
RF Interface	SMA*10
DC Power Supply	DC*1
Data Interface	USB*2
	RS-232*1
	RJ45*1
AC Power Supply	AC 110V-220V/50-60HZ
Working Size (mm)	450 (W)*430 (D)*300 (H)
Dimensions (mm)	460 (W)*440 (D)*382 (H)
Housing	Cold-rolled steel, surface baking varnish
Weight(kg)	25KG
Operating Temperature(°C)	0-50
Colour	Maize(Customer select available)

Notes:

1. Dimensions Tolerance ±2%
2. Custom designs available.
